3.2.2 Establishment and Provision of Service

Applications for initial or additional Services may be made to Telephone Company verbally or in writing. During the application process, the Telephone Company may check commercial credit services or past telephone account information in order to establish a credit risk assessment and/or use in establishing any deposit amount that may be required.

Any change in rates or regulations prescribed by public authority having applicable jurisdiction, modifies all terms and regulations of the Services to the extent of such changes.

The Telephone Company reserves the right to refuse service to any applicant who is found to be indebted to the Telephone Company or its affiliates for service previously furnished until satisfactory arrangements have been made for the payment of all such indebtedness. The Telephone Company may also refuse to furnish service to any applicant desiring to establish service for former Customers of the Telephone Company or its affiliates who are indebted for previous service, regardless of the listing requested for such service, until satisfactory arrangements have been made for the payment of such indebtedness.

The Telephone Company may also decline to provide service to a minor whose principal place of abode is the home of minor's parent, guardian, or other person legally charged with the minor's care and custody.

3.2.3 Directory Listing Service

The rates and regulations for directory listings in this tariff apply only to the alphabetical directory containing the regular alphabetical list of names of Customers. These regulations also apply to Yellow Page listings for business customers.

The alphabetical list of names of Customers is for the purpose of informing interested parties of the telephone numbers of Customers and those entitled to use Customers' Service, and special position or arrangement of names is not contemplated.

The Telephone Company limits the length of any listing in the directory by the use of abbreviations when, in the opinion of the Telephone Company, the clearness of the listing or the identification of the Customer is not impaired thereby.

Listings shall conform to the incumbent telephone company's practices with respect to its directories.

Listings are regularly provided in connection with all classes of Exchange Service, unless the Customer subscribes to Non-Listed, Non-Published or Private Number Service. Ordinarily, listings are automatically included in the directory. A listing, however, may be omitted upon request of a Customer when, in the judgment of the Telephone Company, the omission of the listing is warranted by the circumstances of the particular case.

(C)

The Telephone Company will furnish upon request the name and address of the Customer when used to provide recorded announcements under the provisions of this Tariff.

One listing included with each subscriber's primary line service, termed the Primary Listing, is provided in accordance with the incumbent telephone company's directory practices.

At the request of the Customer, the primary listing may be omitted from the directory and the directory assistance service records as a private telephone number. Private Number Service is furnished subject to the regulations and rates specified in this Tariff. The omission of the primary listing in the directory at the Customer's request does not entitle the Customer to an additional listing without charge in connection with other Services for which the Customer may be subscribing.

The Telephone Company shall allow Customers to secure the provision, repair, and maintenance of CPE from any supplier, provided that such equipment shall be in compliance with applicable registration standards promulgated by the Federal Communications Commission and the Telephone Company's network.
